

Key Investor Information Document

Zimele Fixed Income Fund

Managed by Zimele Asset Management Ltd

This document presents essential investor details regarding this fund, distinct from market content. It is mandated by regulations to facilitate your comprehension of the fund's characteristics and associated risks. We strongly recommend reviewing it to enable an informed investment decision.

INVESTMENT OBJECTIVE

OBJECTIVE

The investment objective of the Zimele Fixed Income Fund is to achieve capital preservation and generation of income through investing principally in investment - grade fixed income securities such as, but not limited to, treasury bills, treasury bonds, corporate bonds, bank call and fixed deposits.

The book value of an investment in a single bond or security and the holding of a corporate bond or commercial paper-related to any single issuer are limited to 25% of the Fund's net asset value. These restrictions, outlined in the Information Memorandum, must be followed at all times.

INVESTMENT POLICY

The Zimele Fixed Income Fund invests within regulatory limits in treasury bonds and treasury bills issued by the government of Kenya. The Fund is actively managed with an aim of achieving returns above the benchmark market yield. The Fund's benchmark is a composite index comprising the 364-day Treasury Bill rate, and the FTSE Bond Index of Kenya. Through its prudent and disciplined approach, the Fund aims to outperform this composite benchmark, making it an ideal choice for investors seeking steady income with a low-risk profile.

Units in this Fund accumulate income, wherein any interest generated from the underlying fixed-income securities accrues to the unit holder in the form of additional units. Regular monthly reports, presented as fact sheets, offer unit holders insights into investment activity, performance, and changes within the Zimele Fixed Income Fund's portfolio, as managed by the Fund Manager.

You can deposit into the Fund during any day, Monday through Sunday. Withdrawals can only be processed on business days (Monday to Friday), excluding weekends and public holidays. Recommendation:
The Fund is suitable for investors with a medium term horizon of at least 3 years or more.

RISK AND REWARD PROFILE

It may be difficult for a Fund to liquidate and redeem its underlying assets fast enough during extreme market conditions without suffering a loss.

RISK CATEGORY 1:

A category 1 fund is not a risk-free investment. It means the risk of losing your invested capital is small, but also the risk of making gains is small.

RISK CATEGORY 7:

In a category 7 fund, the potential for huge returns is high but also the risk of losing your money is also high.

Note: The seven-category risk scale (The Synthetic Risk and Reward Indicator, SRRI, series) is a complex undertaking and a scale category of 2 does not imply that it is twice as risky as category 1 risk.

Additional risks to the fund have been outlined in the supplementary information memorandum of the fund in addition to the risks outlined in the Zimele Unit Trust Scheme Information Memorandum.

WHY THE FUND IS CATEGORY 2?

The Fund is rated category 2 due to its exposure to fixed income securities and the risks they possess outlined below. The factors below have an impact on the value of investments and expose the Fund to potential losses.

The income derived from the underlying asset may fall in case of late payments or defaults by the issuer.

The price of the underlying asset may rise or fall according to interest rates dynamics.

WHAT THE NUMBERS MEAN

The numbers rate how the Fund will behave and how much risk there is to your invested capital. In financial markets high returns are associated with high risk.

Changes in an issuers risk categorization by rating agencies can also impact the yields of the underlying asset and thus the price.

CHARGES

These charges are used to pay the administrative costs of running the Fund, including the costs of system maintenance marketing, research and operations. Overall, they reduce the rate of return on your investment.

ONE OFF CHARGES BEFORE YOU INVEST

Entry Charge	0
--------------	---

Exit Charge	0
-------------	---

CHARGES TAKEN FROM THE FUND OVER A YEAR

Fund Management Fees	2 % of AUM per annum in management fees.
----------------------	--

The entry and exit charges shown are the maximum figures.

The fund management fee is a fixed charge and is the same every year unless changed through an amendment of the information memorandum upon the Authority's approval.

You can find out more details about the charges by looking at the Fees" section of the Information Memorandum and read together with Supplementary Information Memorandum.

PAST PERFORMANCE

PRACTICAL INFORMATION
